PROBLEM STATEMENT: ENHANCING CHARITY & DONATIONS THROUGH FINTECH & TECHNOLOGY

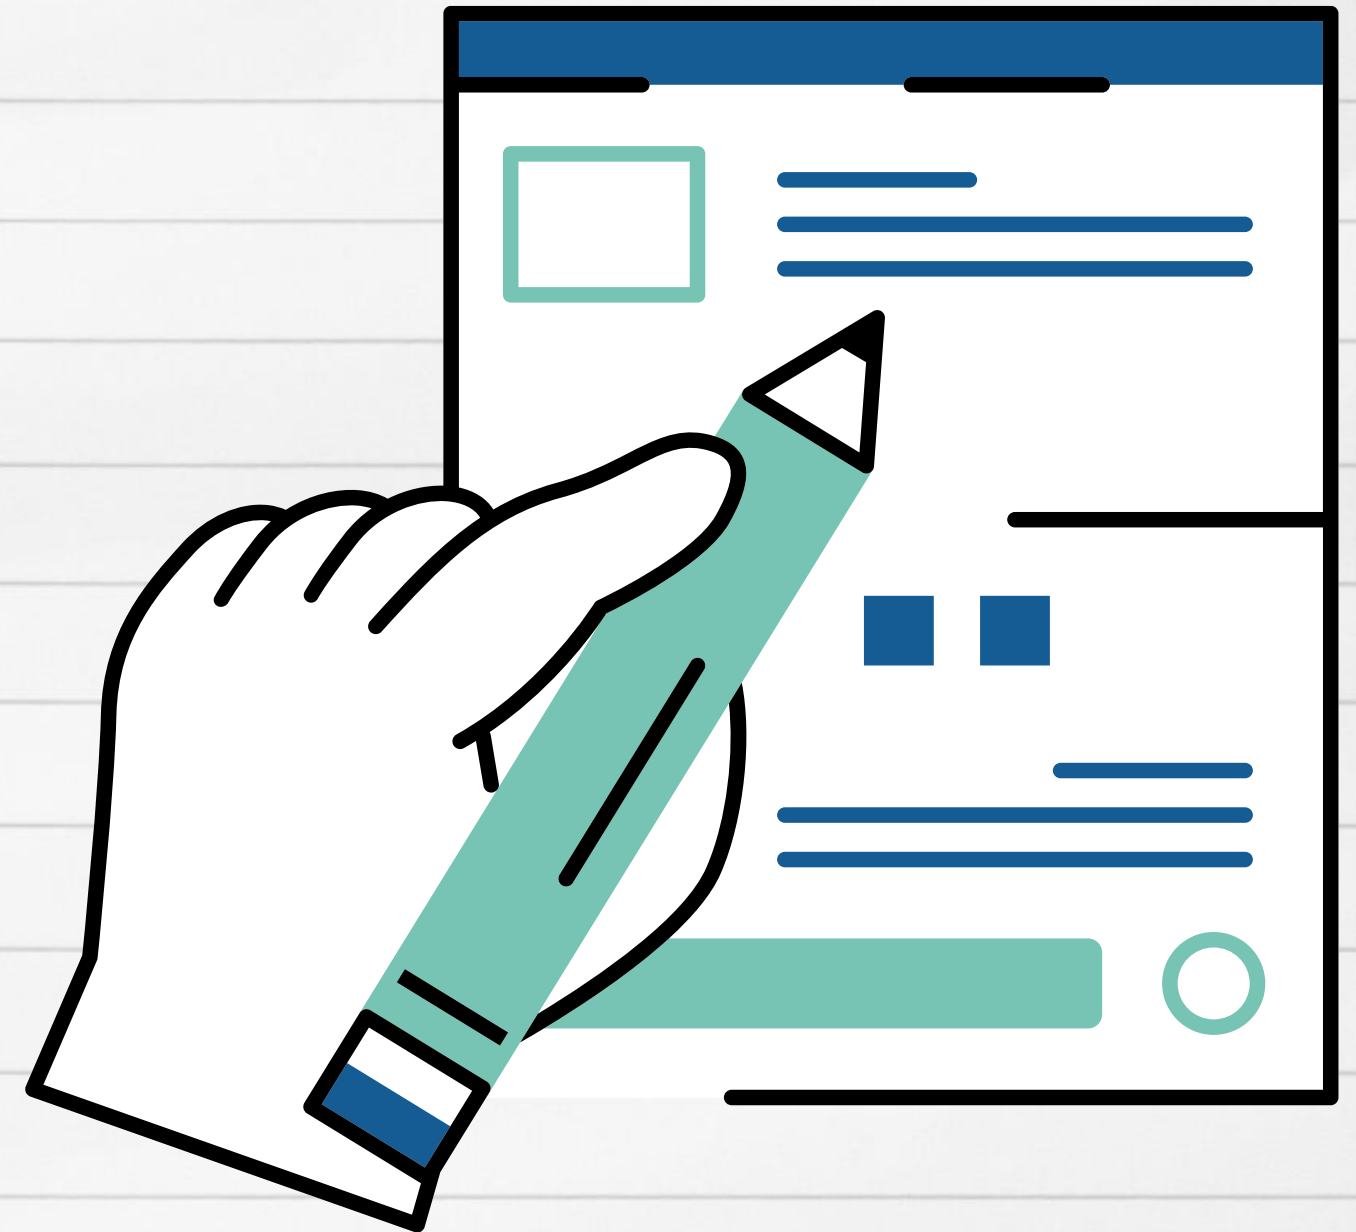

Despite the rapid advancement of financial technology, the management of charitable funds, including

Waqf, Zakat, and Sadaqah continues to face significant challenges such as lack of transparency, inefficiency in distribution, and limited accessibility. Many Waqf institutions, Zakat authorities, and non-profits organisations still rely on outdated systems that hinder real-time tracking, smart fund allocation, and donor engagement.

This hackathon seeks cutting-edge fintech and technology-driven solutions that can transform the end-to-end process of charity donations, from seamless collection and secure fund management to transparent distribution and measurable impact tracking.

SOLUTION

A fintech platform that helps users donate to verified causes through a transparent, Shariah-compliant system. It enables donations via mobile, QR codes, e-wallets, or payment vouchers while providing real-time fund tracking using a logging system and AI-assisted fund allocation to the most prioritized necessities. The aims are to restore trust in charity systems and optimize how aid is delivered.

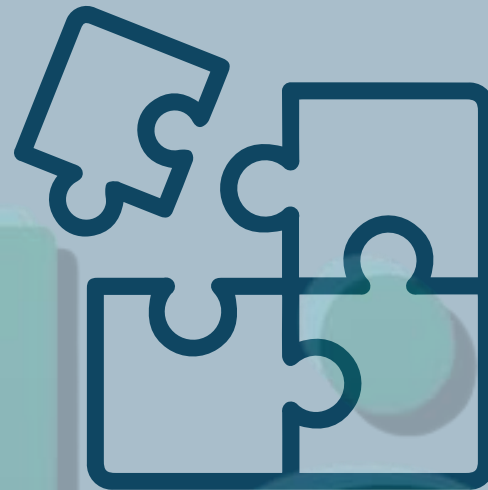

Project Focus

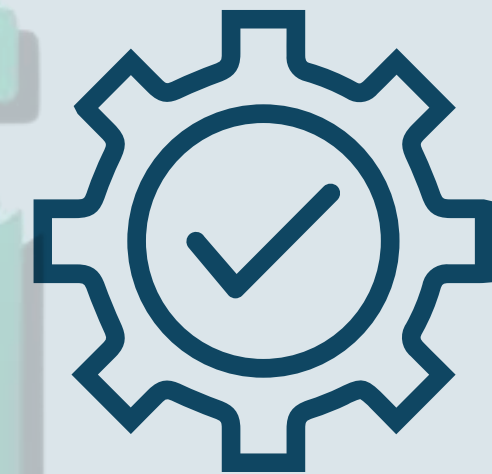

Transparency

- Trackable Donation IDs
- Public log: See which NGO used your money, for what, and who received it
- Proof of delivery (photos, location, etc.)

Reliability & Trust

- Verified NGOs only
- Optional: Integration with LHDN to verify donation recipients
- Regular updates sent to donors

Efficiency

- AI suggests urgent donation needs (e.g. food, medicine)
- Smart Donate feature auto-allocates to high-priority causes

Improvements

Reliability & Trust

- Verifies aid recipients with LHDN
- Regular updates sent to donors
- Only verified NGOs can join

Data Protection

- Uses secure database systems (e.g. SQL)
- Protects user and donation data

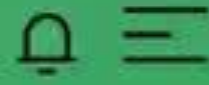

Smart Fund Handling

- Transparent fund breakdowns
- In-app credit conversion system for easy tracking and usage

Gamification

- Earn in-app currency (like Shopee Coins or TNG Points)
- Redeem or re-donate points to support verified causes
